

CLARK ENGE

Orange, CA 92867 | (714) 906-3643 | clarkenge23@gmail.com | [LinkedIn](#) | [GitHub](#)

*Data Science and Statistics with Technology Management Undergraduate
at the University of California, Santa Barbara.*

EDUCATION

University of California, Santa Barbara

Bachelor of Science in Data Science and Statistics in Progress

Coursework: Linear Algebra, Probability, Logic, Experiment Design, Entrepreneurship

Sept 2023 – Current

SKILLS

Programming Languages: Python, SQL, R, C#, Java, HTML

Data Science: Pandas, NumPy, Scikit-learn, TensorFlow, Keras, StatsModels, Seaborn, Matplotlib

Database: SQL, SSMS, SQL Joins, Aggregations, Stored Procedures

Tools: Git, Visual Studio, RStudio, Jira

EXPERIENCE

Sigma Phi Epsilon Gamma Chapter | Vice President of Finance

May 2024 - current

Santa Barbara, CA

- Managed a **\$150,000** budget ensuring financial transparency and stability, reducing discrepancies by **15%**.
- Implemented cost-saving measures, reducing event expenditures by **20%**.
- Streamlined dues collection process using automated reminders, resulting in a **30%** increase in timely payments.

Legal Connect – Software Development Intern

June 2024 – September 2024

Chino, CA

- Implemented and managed a site and database for filing data, reducing retrieval and processing times.
- Refactored legacy codebase to next-gen architecture, improving performance, scalability, and maintainability.
- Designed and built C# and HTML components for an external Next-Gen API, improving system integration.

PROJECTS

Outlier-Resistant A/B Test Evaluation Study | Simulation-Based Statistical Analysis

R | Tidyverse | ggplot2 | Statistical Simulation | Hypothesis Testing

June 2025

- Built R pipeline with effect size, sample size, and skew control to mirror real web data noise
- Simulated **1M+ A/B tests** across 100 conditions to evaluate test robustness under outliers
- Reduced false negatives by **18%** in small-effect scenarios with custom outlier modeling

March Madness Bracket Predictor | Predictive Algorithm

Python | Pandas | NumPy | MySQL | VsCode

February 2023

- Analyzed over 20 years of data using MySQL to identify key metrics, finding the best statistics for predicting winning teams.
- Achieved a **25%** accuracy rate in predicting Final Four teams for 2017 and 2018, outperforming baseline models by **15%**.

CERTIFICATIONS

SQL Essential Training

National Association of State Boards of Accountancy (NASBA)

April 2025

Chainlink 101: Blockchain Developer Fundamentals

Blockchain at University of California Santa Barbara

March 2024
