

CLARK ENGE

Orange, CA | (714) 906-3643 | clarkenge23@gmail.com | [LinkedIn](#) | [GitHub](#)

EDUCATION

University of California, Santa Barbara

September 2023 – March 2026

B.S in Data Science and Statistics with Technology Management | GPA: 3.57/4.0

Coursework: Prob/Stats, Machine Learning, Data Wrangling, Experiment Design, Linear Algebra

Universidad Carlos III de Madrid, Spain (Study Abroad)

Fall 2025

Coursework: Statistical Learning, Advanced Big Data Analysis, Business Analytics

EXPERIENCE

Sigma Phi Epsilon Gamma Chapter | Vice President of Finance

May 2024 – June 2025

Santa Barbara, CA

- Oversaw \$150,000 annual budget, aligning resource allocation and ensuring accurate financial forecasting.
- Introduced cost optimization measures with external vendors, reducing event-related expenditures by 20%.

Legal Connect | Software Development Intern

June 2024 – September 2024

Chino Hills, CA

- Refactored legacy codebase into modular architecture, improving backend scalability and reducing tech debt.
- Collaborated across teams to align technical tools with operational needs, ensuring smooth integration into existing workflows.

SKILLS

Programming: Python, SQL, R, C#, Java, HTML

Libraries: Pandas, NumPy, Scikit-learn, TensorFlow, Keras

Tools: Excel, Tableau, Power BI, Git, Visual Studio, RStudio, Jira, Microsoft Office

PROJECTS

Quantum Error Correction Decoder | ML for Noisy Quantum System

January 2026 – Current

Python | Machine Learning | Time-Series Modeling | Simulation | Bayesian Inference

- Simulated continuous measurement data from a 3-qubit bit-flip code to model realistic quantum hardware noise.
- Benchmarked baseline, RNN, and GNN decoders against an optimal Bayesian decoder across multiple noise regimes.

Airbnb LA Real-Estate Revenue Analysis | Big Data Pipeline & Predictive Modeling

December 2025

Python | Pandas | Scikit-learn | EDA | Regression Modeling

- Cleaned and merged 600K+ LA Airbnb listing + calendar rows using Parquet-based ETL, reducing load times by 80%.
- Built decision-tree models showing that adding a bedroom increases revenue by 12–17% depending on neighborhood.
- Ranked LA neighborhoods with cross-validated models, highlighting property types that outperformed baselines by 35–50%.

Outlier-Resistant A/B Test Evaluation Study | Simulation-Based Statistical Analysis

May 2025 – June 2025

R | Tidverse | ggplot2 | Statistical Simulation | Hypothesis Testing

- Built R pipeline with effect size, sample size, and skew control to mirror real web data noise.
- Simulated 1M+ A/B tests in R and visualized results with ggplot2 dashboards, identifying robust methods under noisy data.

CERTIFICATIONS

IBM Data Science Professional Certificate

April 2026

12 Course Professional Certificate Series - Coursera

SQL Essential Training

April 2025

National Association of State Boards of Accountancy (NASBA)
