

CLARK ENGE

Orange, CA 92867 | (714) 906-3643 | clarkenge23@gmail.com | [LinkedIn](#) | [GitHub](#)

EDUCATION

University of California, Santa Barbara

B.S in Data Science and Statistics with Technology Management

Coursework: Prob/Stats, Machine Learning, Data Wrangling, Experiment Design, Linear Algebra

June 2027 (Expected)

GPA: 3.5/4.0

Universidad Carlos III de Madrid, Spain (Study Abroad)

Coursework: Statistical Learning, Advanced Big Data Analysis, Advanced Knowledge of Spreadsheets

Fall 2025

SKILLS

Programming: Python, R, SQL, C#, Java, HTML

Libraries: Pandas, NumPy, Scikit-learn, TensorFlow, Keras

Tools: Git, Visual Studio, RStudio, Jira, Microsoft Office

EXPERIENCE

Sigma Phi Epsilon Gamma Chapter | Vice President of Finance

May 2024 – June 2025

Santa Barbara, CA

- Managed a **\$150,000** budget ensuring financial transparency and stability, reducing discrepancies by **15%**.
- Implemented cost-saving measures, reducing event expenditures by **20%**.
- Streamlined dues collection process using automated reminders, resulting in a **30%** increase in timely payments.

Legal Connect | Software Development Intern

June 2024 – September 2024

Chino Hills, CA

- Implemented and managed a site and database for filing data, reducing retrieval and processing times.
- Refactored legacy codebase into **modular architecture**, improving backend scalability and reducing tech debt
- Developed **C# and HTML** components for a Next-Gen API, enabling seamless integration with third-party legal platforms

PROJECTS

March Madness Bracket Predictor | Bayesian Modeling

Python | Pandas | Bayesian Modeling | Monte Carlo Simulation | VsCode

June 2025

- Scraped and processed historical data from **Barttorvik**, **KenPom**, and **NCAA** sources
- Built a **Bayesian model** to predict NCAA tournament games using 20+ years of team stats
- Simulated **10K** brackets via Monte Carlo, improving Final Four accuracy by 20%

Outlier-Resistant A/B Test Evaluation Study | Simulation-Based Statistical Analysis

R | Tidyverse | ggplot2 | Statistical Simulation | Hypothesis Testing

May - June 2025

- Built R pipeline with effect size, sample size, and skew control to mirror real web data noise
- Improved test power by **12%** under noisy data using Welch and trimmed t-tests over standard t-tests
- Simulated **1M+ A/B tests** across 100 conditions to evaluate test robustness under outliers

CERTIFICATIONS

IBM Data Science Professional Certificate

June 2025-Current

12 Course Professional Certificate Series - Coursera

SQL Essential Training

April 2025

National Association of State Boards of Accountancy (NASBA)
